# Bavarian higher education reform – What is it?

## Legislative reform affecting Bavarian higher education institutions

- Purposes of a university
- Committees and decision-making processes
- Boundary conditions:
  - Structure of a university
  - Rules for studying and teaching

# Higher education reform – Why?

Goals of the Ministry of Science and the Arts:

- Redefining the purpose of universities
- Possibilities to charge non-EU students tuition fees. (apparently dropped)
- Deregulation
- Enhances possibilities for entrepreneurial activity
- State-level student representation

© STMWK

# Higher education reform – What is our opinion?

## Our main **demands**:

- No tuition fees of any kind for all students.
- Adequate inclusion of all status groups
- Adequate competences for a state-wide student representation.
- No pure teaching or research professorships, include both in all professorships.
- Mandatory sustainability reports
- Commitment to reach climate goals. (Klimaplan 2030)

## Unsere Vision für die zukünftige Entwicklung der Technischen Universität München

*Positionspapier zur Novellierung des Bayerischen Hochschulgesetzes*
